MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Alleged Ominous Activity in the
Guantanamo Area

1. At the meeting of the USIB this morning you requested that I make a careful check to determine whether or not the mission of 25 January confirmed recent reports on ominous activities in the Guantanamo area.

2. A check with NPIC has been made. That office has carefully reviewed the recent materials as well as those collected since 8 January on the Guantanamo area and reports that there is no unusual activity observable. I am also advised that the OCI analysts consider the reported activity of troops to be directed at running down suspect insurgents rather than any activity directed against the Base.
